244 East Broad St. ELYRIA, OHIO

ELYRIA CITY DIRECTORY ALPHABETICAL SECTION.

Names printed in heavy faced type are patrons of the Directory either as subscribers or advertisers. These are the men who do most to make an up-to-date Directory possible.

Name in (parentheses) is wife of the person whose name immediately

precedes.

House umbers in (parentheses) are the numbers on the house but are not the proper number for those houses. They are given to assist in locating the house.

Telephone numbers appear at the end of the line, the Elyria or "Rawson" phone being indicated by the letter E and the Bell phone by the letter B.

This section includes the names of all persons over 16 years of age with their occupation, place of business or employment etc. To learn their relationship to the household of which they are a part turn to the Street Section immediately following this and find their location on the Street where full information will be given, including the ownership or management of the property occupied.

Where two different addresses are given the first is the place of business. In the case of partnerships the names or initials of the members of the

firm are given in (parentheses) after the firm name.

In the case of incorporated companies only the manager's name is given in this section. For full list of officers see Roster of Incorporated Companies in Front Section.

Elyria, Ohio

YOU

Should Attend the

Elyria Business College

Other Schools may be older, some may be larger, but **no other is better!**

Always more positions than graduates. No vacations. Visitors always welcome.

Complete courses in Bookkeeping, including Arithmetic, Commercial Law, Business English, Penmanship, Spelling and Banking, Shorthand, Stenotypy, Typewriting and all forms of office work, filing, duplicating, etc.

Day and Night sessions.

Students may enroll at any time.

The ELYRIA BUSINESS COLLEGE

ELYRIA. OHIO

Frants Premier

When you think "vacuum cleaning," think Frantz Premier. It is broom, brush, pan and sweeper all in one—a compact, well built, thoroughly tested machine. Costs a cent an hour to use. One hour with the Frantz Premier is worth more than half a day with the old-fashioned, inefficient, back-and-muscle-racking tools.

It is light, durable, easy to operate, efficient, and costs only \$25.00. Extra attachments \$7.50.

Phone or write me and you will get an opportunity to test the Frantz Premier way of sweeping. No more beating rugs and carpets.

R. E. GRISWOLD

GROUP OF OBERLIN BUSINESS COLLEGE STUDENTS

The remarkable growth of the OBERLIN BUSINESS COLLEGE is attracting attention in all parts of the country. Its fine new building has been completed. With two splendid buildings, the equipment of this school is not surpassed anywhere in the country. Elyria has sent twenty students to this school the past year. Many of the leading firms at Elyria send to this school when in need of first class office help. Phone Main 191

ELYRIA CITY DIRECTORY CENSUS BY STREETS

Streets in Black Face type, arranged in alphabetical order.

Streets in ordinary type are intersecting streets.

In residences family name appears first, followed by given names of all persons in the house.

In business places given name or initials appear first.

Names set in italics indicate owners of property. Where names are in (parentheses) they are owners or agents of the property.

Telephone numbers appear at the end of the line. B indicates Central Union, E Elyria or Rawson phone.

Punctuation: Name following a : is wife of preceding, names following a ; are children of preceding, names following two ;; are grandchildren, names separated by a, are brothers or sisters, names following a — are roomers or more distant relatives, names following a † are under 21 years of age, those following (||) parallel lines are under 16.

Where two house numbers are given the one in (parentheses) is the number appearing on the house but is incorrect.

Generally odd numbers are on the right hand side of the street and even numbers on the left, following the street from the beginning as here indicated.

Information concerning ownership is obtained generally from occupants or neighbors and accuracy is only approximate. Persons buying a property on installments are accounted owners.
